

Colten J. Stevens

Montgomery, IL 60538 | (630) 270-8139 | coltenjs45@gmail.com | [linkedin.com/in/colten-stevens](https://www.linkedin.com/in/colten-stevens)

SUMMARY

Cybersecurity Engineering student graduating May 2027 and CompTIA Security+ certified, seeking a full-time cybersecurity role in security engineering, risk and compliance, or security auditing. IT Security internship experience in vulnerability management, incident response, access reviews, and compliance auditing (PCI DSS, SOC 2, NIST), with Python-based security tooling and hands-on use of Splunk, CrowdStrike, Qualys, and Nessus.

EDUCATION

Iowa State University, Ames, IA

Expected May 2027

Bachelor of Science in Cybersecurity Engineering | GPA: 3.7

TECHNICAL SKILLS

Certification: CompTIA Security+

Security Tools: Splunk (SIEM), CrowdStrike (EDR), Qualys, Nessus, Nmap, Burp Suite, Metasploit, Wireshark, Kali Linux, IDS/IPS, Active Directory, ServiceNow (ITSM)

Security Operations: SIEM, EDR, log analysis, threat detection, incident response, vulnerability scanning, vulnerability management, patch/remediation management, penetration testing, identity and access management (IAM), access control

Compliance & Risk: PCI DSS, SOC 2, NIST 800, GRC, risk assessment, risk register management, change management

Programming: Python, Java, C, RISC-V Assembly, VHDL/Verilog, SQL (MySQL)

Systems & Networking: Linux (Ubuntu), networking fundamentals, network architecture, firewalls, DNS, virtualization, SSH/FTP/SMB

WORK EXPERIENCE

IT Security Intern

April 2026 – August 2026

Giesecke and Devrient, Bolingbrook, IL

- Correlated 25+ external penetration test findings with risk register entries and coordinated remediation efforts to reduce vulnerability risk.
- Conducted weekly firewall and Active Directory access reviews; approved or rejected firewall change requests and managed security changes through ServiceNow.
- Triage security incidents using CrowdStrike and log analysis, gathered forensic evidence, tracked remediation, and followed up through resolution.
- Performed internal audits validating PCI DSS, SOC 2, and NIST compliance requirements, including NIST 800-aligned removable media sanitization.
- Developed Python-based security dashboards and network visualization tools using Splunk, Qualys, Nmap, firewall, and IDS/IPS data to track approved vs. unapproved devices on the network and mapped each IP/host to its specific vulnerabilities across 400+ vulnerable hosts, speeding up remediation.

Account Manager and Lifeguard

April 2023 – August 2026

Pool Guards, Inc, Montgomery, IL

- Recruited and trained pool attendants and lifeguards on health code compliance for a team of 25 employees.
- Managed two pool sites remotely, designed shift schedules, and tracked inventory and chemical ordering.
- Contributed to management meetings to implement new company policies.

PROJECTS

- **Cybersecurity ISE Lab:** Configured virtualized Ubuntu environments with virtual networks, firewalls, and DNS; applied port forwarding to isolate machines and deployed IDS/IPS tools to log traffic and detect active threats; worked with SSH, FTP, and SMB.
- **Penetration Testing, Private Network:** Conducted penetration tests on internal networks and web applications using Burp Suite, Nmap, Metasploit, and Wireshark; used Nessus to identify CVEs and assess risk; simulated phishing and password-cracking attacks in a controlled lab environment to obtain server credentials.
- **Card Game App:** Built an Android app for online multiplayer card games using Java, Spring Boot, MySQL, and Maven. Received Best Project Award in 2023 App Development course.
- **Semi-Autonomous Vehicle:** Led team development of a Wi-Fi-controlled vehicle using microcontroller bitwise masking, with ultrasonic and IR sensors and an obstacle-detection algorithm.

ACTIVITIES & HONORS

- Iowa State Dean's List, six semesters (Fall 2023 – Spring 2026)
- Iowa State Cyber Defense Competition and The Hack Club (Cybersecurity Engineering Club), Fall 2025 – Present
- Iowa State Rugby Club, Health and Service Officer / Member, Fall 2023 – Present; Associated General Contractors Student Chapter; LowerNine.org Volunteer Trip; Flag Football Intramurals
